SKILLS

- **Programming:** Java, Groovy, Go, Python, Spring Boot
- **Blockchain:** Hyperledger Fabric, R3 Corda, Smart Contracts
- **Cloud & Security:** AWS, Cybersecurity, API Integrations
- **Databases:** MySQL, PostgreSQL
- **Tools:** Jira, Confluence, Git, Jenkins, Opensearch, Docker
- **Automation and Content Tools:** Zapier, Make, ToolJet, Pixieset, Capcut

PROJECTS ([GITHUB](#))

- **FileTidy** – Java mini-app for organizing and managing files.
- **Custom ToolJet** – Implemented built-in notification service using SMTP protocol.
- **Hyperledger Fabric** – Starter template for CRUD operations in chaincode development.
- **Corda** – Starter template for smart contract development.

PROFESSIONAL EXPERIENCE

LevelBlue, Remote

(May 2023 – Present)

Cloud Integration Engineer

- Designed efficient and secure scripts for data extraction from external APIs.
- Provided production support, troubleshooting issues, and handling escalation tickets.
- Collaborated with teams to adapt software solutions to evolving cybersecurity needs.
- Maintained comprehensive documentation for knowledge sharing and reference.

Google Operations Center, PH

(Sep 2022 – May 2023)

Tech Process Senior Associate

- Configured and tested new payment services.
- Monitored and troubleshooted partner integration issues.
- Utilized debugging tools for root cause analysis and issue resolution.
- Acted as a point of contact for post-launch issues with partners.

Accenture Inc. , PH*(June 2021 – Sep 2022)**Software Engineer*

- Implemented Hyperledger Fabric (Go) and integrated with Node.js/Spring Boot.
- Developed R3 Corda smart contracts and workflows using Java.
- Designed and deployed blockchain networks, APIs, and solutions.
- Managed tasks using Jira/Confluence and supported integration with Kaleido Platform.

Astrophysics Asia Inc. , PH*(Nov 2018 – June 2021)**Field Service Engineer*

- Provided database management using MySQL Workbench.
- Performed Windows OS upgrades, system imaging, and LAN setup.
- Installed and maintained X-ray machines across 100+ site visits locally and internationally.
- Conducted technical training for private and government clients.

CERTIFICATIONS

- **Full-Stack Application Development (Spring Boot & React)** – Udemy (Sep 2024)
- **Java for Beginners** – Udemy (Sep 2024)
- **Introduction to Cyber Security** – Great Learning (May 2024)
- **Introduction to Cybersecurity** – Cisco (May 2024)
- **Official ISC2 CC Online Self-Paced Training** – ISC2 (Dec 2023)
- **AWS Cloud Practitioner Essentials** – AWS (May 2022)
- **IBM Blockchain Essentials V2** – IBM (May 2022)
- **Corda Certified Developer** – R3 (Nov 2021)

EDUCATION

Adamson University, Philippines**2017***BS Electronics Engineering (BS ECE)***Polytechnic University of the Philippines****2025 - Present***Master in Information Technology (MIT)*
