PROFESSIONAL SUMMARY

Backend and Integration Engineer with 5+ years of experience in backend development, API integrations, ETL workflows, automation, and production support across cybersecurity, cloud, and blockchain environments. Skilled in Java, Groovy, Go, Spring Boot, REST APIs, and cloud-based integrations, with hands-on experience building AI-powered applications and integrating cloud and local LLMs. Strong interest in AI and continuous learning, with a focus on RAG, agentic AI, and emerging AI technologies. Experienced in troubleshooting complex production issues and collaborating with cross-functional global teams.

PROJECTS

CLARA – Clean, Locate, Ask, Retrieve Assistant | [GitHub](#)

- Built a desktop AI-powered file management application with file organization, duplicate detection, AI search, and file Q&A.
- Implemented RAG-based retrieval and chatbot workflows with support for cloud AI APIs and local LLMs through Ollama.
- Developed file automation features for organizing files, flattening folders, and safely removing duplicates.

AI Word Assistant – Microsoft Word AI Add-in | [GitHub](#)

- Developed a Microsoft Word Office Add-in for AI-powered rewriting, editing, translation, formatting, and document Q&A.
- Built using TypeScript, HTML/CSS, and Office.js to interact with the Microsoft Word document model.
- Implemented a provider abstraction supporting OpenAI, Groq, OpenRouter, LM Studio, and Ollama, including local LLM processing.

TECHNICAL SKILLS

- **Programming & Backend:** Java, Groovy, Go, Python, Spring Boot, REST APIs, ETL / Data Integration
- **AI & LLM:** RAG, LLM Integration, AI Agents, OpenAI, Ollama, LM Studio, OpenCode, Cursor
- **Blockchain:** Hyperledger Fabric, R3 Corda, Smart Contracts, Kaleido
- **Cloud & Security:** AWS, Cybersecurity Integrations, API Integration
- **Databases & Tools:** PostgreSQL, MySQL, OpenSearch, Jenkins, Git, Jira, Confluence

PROFESSIONAL EXPERIENCE

LevelBlue Inc. , Remote
Integration Engineer

(May 2023 – Present)

- Develop and maintain Groovy and Java-based ETL and ingestion pipelines integrating cybersecurity data from third-party APIs into cloud platforms.
- Troubleshoot production integration issues through log analysis, debugging, root cause analysis, and implementation of fixes and schema updates.
- Collaborate with engineering and cybersecurity teams to develop integration enhancements, improve pipeline reliability, and maintain technical documentation.

Google Operations Center, PH
Tech Process Senior Associate

(Sep 2022 – May 2023)

- Configured, tested, and validated payment service integrations for global partners across production environments.
- Investigated and resolved partner integration issues through technical troubleshooting, debugging, and root cause analysis.
- Monitored post-launch integrations and coordinated with internal teams and external partners to resolve service and reliability issues.

Accenture Inc. , PH
Software Engineer

(June 2021 – Sep 2022)

- Developed enterprise blockchain solutions using Java, Go, Hyperledger Fabric, and R3 Corda, including smart contracts, APIs, and distributed workflows.
- Integrated blockchain platforms with Spring Boot and Node.js backend services to support enterprise application workflows.
- Supported blockchain network deployment and integration activities using the Kaleido platform while collaborating with Agile development teams.

OTHER EXPERIENCES

Astrophysics Asia Inc. | Field Service Engineer | Nov 2018 – Jun 2021

Asticom Technology Inc. | Senior Broadband Specialist | May 2018 – Nov 2018

Convergys Philippines Inc. | Technical Support Representative | Nov 2016 – Aug 2017

CERTIFICATIONS

- **IBM RAG and Agentic AI Professional Certificate** – Coursera (In progress)
- **Google AI Professional Certificate** – Coursera (Jun 2026)
- **Full-Stack Application Development (Spring Boot & React)** – Udemy (Sep 2024)
- **Java for Beginners** – Udemy (Sep 2024)
- **Introduction to Cyber Security** – Great Learning (May 2024)
- **Introduction to Cybersecurity** – Cisco (May 2024)
- **Official ISC2 CC Online Self-Paced Training** – ISC2 (Dec 2023)
- **AWS Cloud Practitioner Essentials** – AWS (May 2022)
- **IBM Blockchain Essentials V2** – IBM (May 2022)
- **Corda Certified Developer** – R3 (Nov 2021)

EDUCATION

Adamson University, Philippines
BS Electronics Engineering

2017

Polytechnic University of the Philippines
Master in Information Technology

2025 - Present
