PROFESSIONAL SUMMARY

Backend and Integration Engineer with 5+ years of experience in API integrations, backend development, automation scripting, and production support across cybersecurity, cloud, and blockchain environments. Skilled in Java, Groovy, Go, Spring Boot, REST APIs, ETL workflows, and cloud-based integrations. Experienced in troubleshooting complex production issues, building scalable ingestion pipelines, and collaborating with cross-functional global teams. Strong background in cybersecurity integrations, blockchain development, and backend automation.

TECHNICAL SKILLS

- **Programming:** Java, Groovy, Go, Python, Spring Boot, REST APIs, ETL / Data Integration
- **Blockchain:** Hyperledger Fabric, R3 Corda, Smart Contracts, Kaleido Platform
- **Cloud & Security:** AWS, Cybersecurity Integrations, API Integration
- **Databases & Tools:** MySQL, PostgreSQL, Jenkins, Git, OpenSearch, Jira, Confluence

PROFESSIONAL EXPERIENCE

LevelBlue Inc. , Remote

(May 2023 – Present)

Cloud Integration Engineer

- Developed and maintained secure ETL and ingestion scripts for extracting cybersecurity data from third-party APIs.
- Built backend automation workflows using Groovy and Java to support scalable cloud integrations.
- Provided production support for integration pipelines, including incident investigation, debugging, root cause analysis, and issue resolution.
- Collaborated with cross-functional engineering and cybersecurity teams to implement integration enhancements and schema updates.
- Maintained technical documentation and operational procedures for internal knowledge sharing and onboarding.
- Supported monitoring and troubleshooting activities using OpenSearch and internal tooling.

Google Operations Center, PH

(Sep 2022 – May 2023)

Tech Process Senior Associate

- Configured, tested, and validated payment service integrations for global partners.
- Investigated and resolved partner integration issues through debugging and root cause analysis.
- Monitored post-launch integration performance and coordinated issue resolution with internal teams and external partners.
- Utilized technical troubleshooting tools and workflows to improve operational stability and service reliability.

Accenture Inc. , PH

(June 2021 – Sep 2022)

Software Engineer

- Developed blockchain-based enterprise solutions using Hyperledger Fabric, R3 Corda, Java, and Go.
- Implemented smart contracts, workflows, and APIs for distributed ledger applications.
- Integrated blockchain platforms with Spring Boot and Node.js backend services.
- Assisted in designing and deploying blockchain networks and enterprise integration solutions.
- Collaborated with Agile teams using Jira and Confluence for sprint planning, task management, and documentation.
- Supported integration and deployment activities within the Kaleido blockchain platform.

OTHER EXPERIENCES

Astrophysics Asia Inc. | Field Service Engineer | Nov 2018 – Jun 2021

Asticom Technology Inc. | Senior Broadband Specialist | May 2018 – Nov 2018

Convergys Philippines Inc. | Technical Support Representative | Nov 2016 – Aug 2017

CERTIFICATIONS

- **Full-Stack Application Development (Spring Boot & React)** – Udemy (Sep 2024)
- **Java for Beginners** – Udemy (Sep 2024)
- **Introduction to Cyber Security** – Great Learning (May 2024)
- **Introduction to Cybersecurity** – Cisco (May 2024)
- **Official ISC2 CC Online Self-Paced Training** – ISC2 (Dec 2023)
- **AWS Cloud Practitioner Essentials** – AWS (May 2022)
- **IBM Blockchain Essentials V2** – IBM (May 2022)
- **Corda Certified Developer** – R3 (Nov 2021)

EDUCATION

Adamson University, Philippines

2017

BS Electronics Engineering

Polytechnic University of the Philippines

2025 - Present

Master in Information Technology
